

OUR COMPANY

WORDS FROM THE FOUNDER

Since the establishment, we have been attempting to simplify metal works to become almost the optimum in-house for all sectors. Our success was always driven by our passion to provide the best and to distribute this success to all of our partners and clients. Our success was never driven by profit aims, our achievements neither are measured by quantitative accounting measures, our quality is not only tested through QA/QC procedures. Our Continual development and timeline expansion is all about loyalty of clients, risks we dive in, and the integration of stakeholders.

Eng. Ahmed Al-Massri

MISSION

- · We are committed to provide the market with all sorts of metal fabrication necessities.
- We are to play vital role in national development hand in hand with private and public sectors towards Qatar vision 2030, and beyond.
- We are taking into our considerations the implementation of latest updates of international organization standards as well as the latest of national standards in terms of quality, performance, health, and safety.
- We continually; develop our processes, upgrade our machines, improve technologies utilized, train and
 educate our stakeholders, elevate our experience, extend our capability, improve our resources, lean cost,
 diverse our products, to ensure the quality of our products and to enhance the quality of our customer
 relations. We believe in diligently going the extra mile.

VISION

- To bring about the peace of mind when it comes to metal works.
- · To make metal works the nationwide affordable effortless part of every project at all Sector.

COMPANY BACKGROUND

ALKARMEL METAL INDUSTRIES was established in 1996. Starting as a small metal fabrication workshop, and expanding to become one of the most professional metal fabricators in Qatar. With our status factory property, we could not only expand in size but also in the diversity and variety of products and further in clients. We reached out for more than 240 esteemed clients, and 45 prestigious international and public sector establishments is our pride. In 2005, keeping up with the increasing market demand our expansion into wider range of products to include consumables of the construction and industrial fields came out with our specialized production lines. Yet, we have successfully handed over 190 projects and over 1,200 different types of products.

OUR PROCESSES

At ALKARMEL, we are committed to professionalism; therefore, and in compliance with our policy of quality, all manufacturing processes at our workshops are produced utilizing the best of up-to-date machinery. The capability of our machines along with our specialized operators enables us to undertake enormous projects for prestigious clients achieving definite satisfaction of end users. Engaging with cooperation with international institutes, we work on continuously develop our processes to the proven successful updates. For accuracy to be clinched, we utilize the frequent sessions of ultimate precise measuring approach.

OUR QUALITY

Our Machinery Capability enables our range of production to be widened from light accessories to heavy duty tankers production. We are capable to deliver the best of quality when it comes to our adequate experience in our specialty to fabricate all sorts of tankers. For our quality to be enhanced:

- We co-operate with governmental and international bodies as well as third party organizations and institutes:
- We undertake continual searching and development over our production processes, quality assurance methods, managerial approaches, environmental friendly compliance, and customer satisfaction.
- We are International Standard Organization Certified and we maintain the validity of our ISO 9001:2015 certificate.
- · We insure legitimate authority to quality auditing over our production.
- · We purchase and utilize only certified metals when it comes to procurement and importing.
- · We do provide testing reports and certificates when required.
- We periodically conduct calibration and maintenance for our machines
- · We train and certify our manpower.

OUR TEAM AND WORKERS

From our facilities and machines to engineers and fabricators are all dedicated to provide you with the best of services. Our workers are best practice trained and certified for putting the utmost effort to work with the highest of accuracy in order to ensure the delivery of work on time with Zero Rework/Zero defect Monitoring System deploying our experience into your product.

We pay attention to all design details to bring about the admired decoration purpose. We devote our sense of art to deliberately understand and manufacture what is exactly in your imagination, and beyond what is desired.

GATES & BALCONY GUARDS

STAIRS, LADDERS, HANDRAIL, PLATFORMS, & CATWALKS

POOL ACCESSORIES, WATER FEATURES, & SCULPTURES

OUR PRODUCTS

FORMWORK SHUTTER MOULDS

- We do fabricate each and every size and design of formwork shuttering moulds, circular or curved Design: Designed that involves civil engineers experience with minimum number of elements for easiest assembling/dismantling guaranteed. Simplified installation and de-shuttering with ease which in turns speed up the pace of work.
- Handling: We design our formwork to be as light as possible for easy handling with our easy stripping design consideration.
- Rigidity: sufficient to retain the shape and to withstand all types of dead and live loads. We guarantee the strength of our fabricated moulds, providing durability that lasts long and reusability.
- · Joints: tight against leakage with our HD clamps to ensure safe pouring.
- · Suitable for reuse, thanks for high endurance material.
- Accuracy: to your desired line and level providing fine surfaces that requires no further treatment.
- · Precast Yards: We fabricate casting Tilting and vibrating platforms, Machining,

Micro Tunneling Spider Clamps & Accessories

TANKS & TANKERS

ALKARMEL METAL INDUSTRIES is a specialized fabricator of all types of liquid Storage Tanks.

Implementing the best of standards, we fabricate storage tanks and tankers of all sizes with a wide range of capacities, such as; firefighting storage tanks as per CDD requirements, Sewage Tankers, MC1 Tankers, High pressure tanks, Underground Tanks, Fuel Tanks, Woqod Tanks, Stainless Steel Tanks, Galvanized Tanks, Cylindrical Tanks, Vertical & Horizontal Tanks, Septic Tanks, and on-Stand Tanks. All of our Storage Tanks are designed as per requirements with all accessories and best of guality.

SKIPS | HOOPERS | BUCKETS | LIFTING BASKETS

With just above 30 years of experience, We Manufacture all types of certified high quality medium and heavy duty and sizes of , lifting baskets, Concrete Buckets, Pan Skips and Hoppers, Compactor Skips that endure for your site utility.

- Builders skips
- Boat Skips
- · Ramp Skips
- · Block end Skips
- · Stacking Skips
- Eco/Budget skips
- Compactor Skips
- Multi Stack Skips

OPEN DOUBLE TIPPING SKIPS | OPEN SINGLE

TIPPING SKIP | OPEN FLAT TOP SKIPS

ENCLOSED SINGLE TIP SKIPS | OPEN SINGLE

TIP SKIPS | BOAT SKIPS | ENCLOSED DOUBLE

TIPPING SKIPS | MINI SKIPS | MIDI SKIPS

MAXI SKIPS | SELF ASSEMBLY

OUR SERVICES

MAINTENANCE SERVICES

Our solutions maintain the integrity of your process systems. Keeping systems on-line reduces the amount of potentially harmful and polluting fugitive emissions released into the atmosphere.

With our high precision CNC lathing machines, we guarantee your machine to work as brand new.

Welding Neck, Slip on, Socket Weld, Lap Joint, Stub End, Threaded, Blind, are only few of the wide range of Pipe Flanges machined at ALKARMEL's fabrication workshops.

Whether it is a single point threading or grooving, our expert team will ensure the satisfaction of your order.

MACHINING

When it comes to precision, ALMARMEL 's mechanical machining workshop is capable to produce the highest accuracy, with all certified latest version of technology deployed into the expert hands of our professionally skilled technicians.

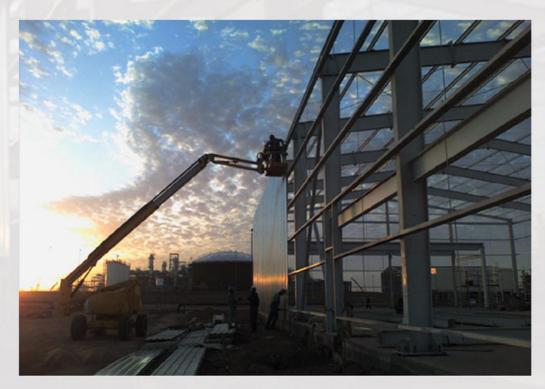

OUR SERVICES

STEEL STRUCTURE

Conventional & Pre-Engineered

We are committed to provide a full range of premium quality steel building solutions for all commercial, Industrial, Institutional and residential needs using our expertise in Design, Detailing, Fabrication and Erection.

Our clientele consists of Architects, Contractors, Developers, Investors, Manufactures and Government Institutions among others, from all over the state of Qatar. We also partner with Civil Contractors in fabricating the steel work part of their scope and help them achieve their completion targets. Pre Engineered Buildings (PEB) & Heavy Structural Steelwork: Industrial and chemical factories Warehouses & stores Sports halls Bridges, Silos fabrication, Delivery & Erection Fabrication & Erection of Mechanical Installations Machinery support steelwork Non-pressure/low pressure process vessels Fuel/water/liquid storage tanks - vertical, horizontal & underground, Machinery support steelwork Fabrication & Installation of Light Gauge Steel Building Solutions

MACHINERY

OUR MACHINES

At ALKARMEL, we are committed to professionalism and excelling ingenuity, therefore, all manufacturing at our workshops are produced utilizing the best of up-to-date machinery. The capability of our machines along with our experienced operators enables us to undertake enormous projects with prestigious clients with definite satisfaction of end users.

Hydraulic End Dish Press Machine

OUR MACHINERY

Dual Head CNC Machine

Our Machinery Capability enables our production to widen the range from light to heavy duty tankers production. We are capable to deliver the best of quality when it comes to our adequate experience in our specialty to fabricate all sorts of tankers.
